HOW IT WORKS

THREE STEPS FROM YOUR PHONE TO *their shortlist.*

01

Post your best work

Photos, clips and audio of what you do, on a page of your own. Your portfolio, ready to share with one link.

02

Grow a following

People follow you, like your posts and comment, from your street and from the other side of the world.

03

Get discovered

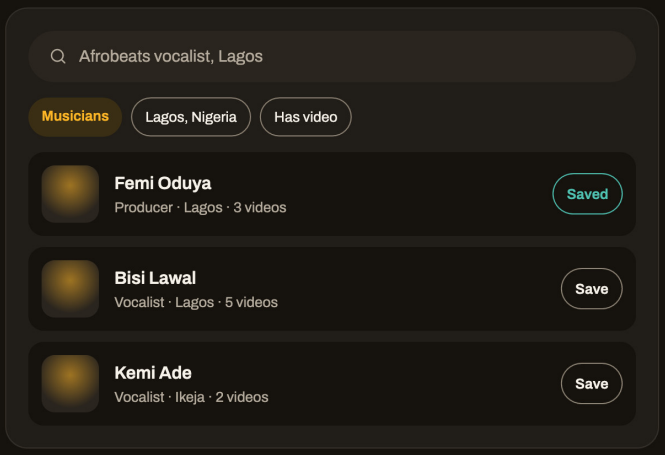

Verified agents search by what you do and where you are. They send a request first, and you choose who can message you.

FOR AGENTS AND SCOUTS

FIND THE ONE BEFORE *everyone else does.*

- Search by discipline, skill and city across 244 countries and territories.
- Save talent to shortlists and come back when the brief arrives.
- A verified badge on your agency, so talent know your request is real.

Get your agency verified

SAFE BY DESIGN. *Not by luck.*

Being discovered should never mean being exposed. These rules are built into the app, not added later.

Verified agencies

A moderator checks every agency before it gets the badge. Talent can see who is verified at a glance.

Every photo reviewed

Profile photos are checked before anyone sees them, so every profile is a real person.

You choose who messages you

Agents send a request first. Nothing reaches you until you accept it.

Report and block

On every profile, post and conversation. Adults only: everyone is 18 or over.
